

**UdiREINFORCEMENT® Strengthening Mesh (D 1)**

The product is used together with either UdiFOUNDATION COAT or UdiMULTIGRUND® Base Coat and should be bedded into the upper third of the coating nearest the surface. UdiREINFORCEMENT® Strengthening Mesh in combination with the UdiPERL®SYSTEM provides a high level of rigidity and dynamic loading resistance.

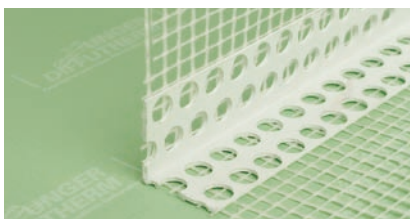

**UdiREINFORCEMENT® 3D Corner Strengthening Mesh 90 Degree (D 2)**

Provides a three-dimensional reinforcement of the rendered surface of reveals/interior corners around windows and doors.

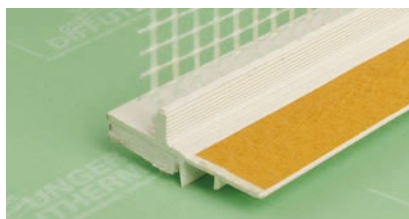

**UdiREINFORCEMENT® Corner Strengthening Mesh (D 3)**

Provides a two-dimensional reinforcement of the rendered surface of corners around windows and doors

**UdiREINFORCEMENT® Corner Protection Profile (D 5)**

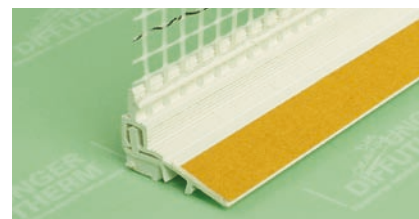

Plastic profile for reinforcement of rendered corners. Complete with pre-welded strengthening mesh strips. For window, door and building corners. The UdiREINFORCEMENT® Corner Protection Profile should be affixed before the installation of the UdiREINFORCEMENT® Strengthening Mesh.

**UdiREINFORCEMENT® Render Edging Strip UNIVERSAL (D 8)**

Tried and tested self-adhesive plastic strip with strengthening mesh with a broad sticking surface for a permanent and rain-proof flexible joint.

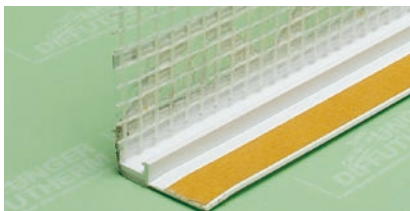

New: with an UV-resistant protective lip

**UdiREINFORCEMENT® Render Edging Strip LATE (D 9)**

Self-adhesive plastic strip with strengthening mesh. The design employs two interleaved telescopic profiles to compensate for movements. The ideal render termination strip for previously installed insulation boards.

New: with an UV-resistant protective lip

**UdiREINFORCEMENT® Render Edging Strip INSIDE (D 10)**

Self-adhesive plastic strip with sealant tape and strengthening mesh. Provides a neat and professionally-finished rendered edge on windows and doors. For use with internal insulation

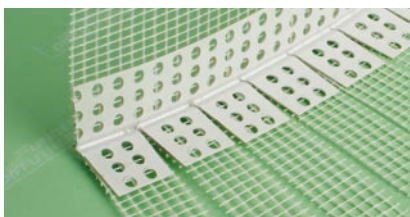

**UdiREINFORCEMENT® Drip Edge Profile (D 11)**

With a drip-nose for a neat rendered finish on recessed parts of the building frontage.

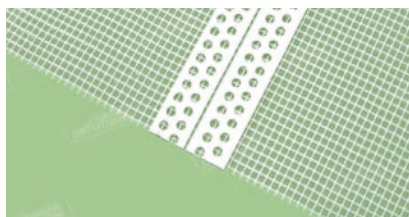

**UdiREINFORCEMENT® Expansion Joint Profile (D 12)**

A flush-fitting solution for expansion joints in the insulation surface or interior corners. With a co-extruded, flexible profile and pre-welded strengthening mesh on both sides to provide a strong and neat render finish.

**UdiREINFORCEMENT® Arch Profile (D 13)**

With a reinforced edge for arched and curved features on doors, windows and entrances.

**UdiREINFORCEMENT® Corner Protection Profile VARIABLE (D 13)**

Plastic profile for reinforcement of rendered corners of all angles. Complete with pre-welded strengthening mesh strips. Can be cut to size on-site for a perfect fit.

**UdiREINFORCEMENT® Sheet Metal Edging Profile (D 20)**

A waterproof joining strip between sheet metal and fine render. Flexible with a pre-formed drip-nose. Various fixing options.
